For Sale.

OUR DRUG BUSINESS located in San Francisco, Cal. After our best wishes and expressing our thanks for the liberal patronage we have received for more than twenty-one years, during which period we have been steadily engaged in the Drug business in California, we beg to say in consequence of the rapid growth of Dr. Walker's California Vinegar Bitters, now spread over the United States and other countries far beyond, we are necessitated to devote our entire time to the said business.

We are the Oldest Drug firm on the Pacific Coast and he only one, continuous under the same proprietors since 1948, and have determined to sell our large, prosperous, and well established business on favorable terms.

This is a rare opportunity for men with means, of entering into a profitable business with advantages never before offered.

For particulars enquire of

A GREAT MEDICAL DISCOVERY
Dr. WALKER'S CALIFORNIA
VINEGAR BITTERS

Hundreds of Thousands
Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

THEY ARE NOT A VILE
FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

$100 will be given for an incurable case, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow!

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

J. WALKER, Proprietor. R. H. McDONALD & CO., Druggists and Gen. Agents, San Francisco, Cal., and 32 and 34 Commerce Street, New York.

SOLD BY ALL DRUGGISTS AND DEALERS.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. Send for a circular.

THE BRITISH COLONIST.
Tuesday Morning, May 9, 1871.

The Civil List Agitation.

The agitation which was to have swept British Columbia from stem to stern like a typhoon and made the Government "shake in its boots" appears to have fallen still-born upon the matter-of-fact people of the Mainland. This result cannot be matter of surprise. The Civil List Bill was essentially an unpopular measure, and an Executive mistake. It should never have been passed at the time and in the form in which it appeared. Not that it contained elements of real danger, or that one-half of what has been affirmed concerning it is true. But as a piece of legislation it was inoportune and supplied a convenient hobby-horse with which, to use the language of the member for Lillooet, to "buck against the Government." It required no great amount of prescience, however, to predict that, in the hands of the two jockeys to whom it was committed, this hobby-horse would never win the race on the Mainland. It would appear that, undeterred by the rebuff with which they met at New Westminster, these worthies have continued their course in the direction of Cariboo; but whether their hobby-horse carries them or they it has become a question. It is to be believed that so long as "the fund" lasts and they "stand treat" they will have audiences; and, so far as their little game is concerned, it is a matter of comparative indifference whether these audiences consist of a greater or a lesser number of persons, so long as the everlasting series of resolutions are passed in the name of "We, the people of British Columbia," and the fact is duly chronicled in their organ at the capital. There are advantages in small numbers. It will cost fewer "bits" to stand the accustomed 'treat' and unanimity is more easily attained. A more contemptible and barefaced burlesque was never perpetrated in the name of "the people." It far excels in the sublimity of its impudence, the action of the "Three Tooley-Street Tailors." But it will be observed that the announcement of every successive meeting becomes fainter in the organ. The last at Hat Valley is announced in very modest terms; and, as only one of the jockeys is mentioned in connection with it, one is led to suspect that the hobby-horse has thrown the other. This is how the patriotic mission of these two worthies is noticed in the Cariboo *Sentinel*:—

ABORITIVE MEETINGS.—It having been announced that a series of monster meetings in opposition to the Civil List Bill lately passed would be held "from Dan to Beersheba," from Victoria to Cariboo, Messrs Humphreys and Kay started to carry out the programme of the agitators. Their first attempt was at New Westminster, where the meeting was postponed *sine die* on account of the requisite notice not having been given by the President of the Municipal Council. They next tried Yale, where another fizzle ensued, and they started for Lillooet. That they will carry out their design and come to Cariboo is very doubtful. The people here have something else to do besides troubling their heads about such nonsense.

Canadian Foreign Trade.

It appears from recent returns that the foreign trade of Canada is increasing very rapidly. Up to the time of the abrogation of the Reciprocity Treaty Canada was content to rely upon her immediate neighbor for a market. That market was, however, suddenly closed by the abrogation of the treaty, and Canada was forced to turn elsewhere; and there are many who hold to the opinion that much real good has come out of what was regarded at the time as an evil. Be that as it may, it is quite certain that the foreign trade of Canada has thriven amazingly since her illnatured cousin slammed the door in her face. The following facts are gleaned from late returns: In 1867 three vessels went from the St Lawrence, two to Monte Video and one to Buenos Ayres, taking in all 728.-116 feet of lumber of the value of $8457. In 1868 the number of vessels increased to 17, the feet of lumber to 6 407 634 and the value of the cargoes to $105,335. In 1869 there was a still more noticeable advance. Forty-one vessels went, carrying 13,806.-276 feet of lumber of the value of $202,523, while last year there were 66 vessels, taking 24,998 914 feet of the value of $352,415. In 1864 out of 41 414 barrels sent to Prince Edward Island only 2848 came from Canada, all the rest coming from the States. In 1870 of 45,300 barrels imported, 32,800 came from Canada and 12,500 from the other side. In 1864 out of 197 980 barrels sent to Newfoundland, 25,835 or rather more than one eighth went from Canada and 172,145 from the States. In 1870 of 261 436 barrels imported, 77,720 went from Canada or considerably more than a fourth. The Canadian trade with Australasia, China, Japan and the West Indies is as yet only in its infancy, but gives promise of speedy and enormous expansion.

Supreme Court.

(Before Chief Justice Begbie.)

The Queen Charlotte Coal Mining Company, [limited] in liquidation vs Robert T Williams. Application by Williams to have his name removed from the list of contributoies on the ground of his being a minor at the time of purchasing the shares for which he was called on.

Mr Bishop appeared for the appellant, Mr Drake for the liquidators, and Mr Robertson on behalf of the shareholders.

After hearing the evidence on both sides the Court held that Williams was not liable, and directed that his name be removed from the list of contributories.

THE CARIBOO FIRE BRIGADE AND THE GOVERNMENT.—During last session of the Legislative Council there were, as usual, sheaves of resolutions passed, recommending no end of expenditure of public revenue. Amongst those was one recommending a grant of the modest sum of five hundred dollars in aid of the Barkerville Fire Brigade. This resolution shared the fate of all the others, the Executive having apparently concluded that it would be expedient to reject *all* such recommendations. This conclusion on the part of the Executive was doubtless arrived at upon two grounds; first, that having already appropriated every dollar of the presumed revenue in carefully prepared Estimates for the year, they would not be warranted in entertaining additional expenditure, trusting to the possible elasticity of the revenue to meet the same; secondly, to act upon one of these recommendations and not upon all would be to raise invidious distinctions and create increased dissatisfaction. Now, without admitting that either or both of these grounds would constitute a sufficiently strong reason for refusing compliance with the particular recomendation in question, it must be admitted that they are entitled to conside ation. The refusal on the part of the Government to place the sum named at the disposal of the Barkerville Fire Brigade, in compliance with the recommendation of the Legislature, appears to have occasioned a degree of discontent quite out of proportion to the amount of money involved. While desiring to make due allowance for the difficulty of dealing with such cases, we will at once admit that the people of Barkerville do not complain without reason. Without stopping to institute a comparision between their case and that of the Victoria Fire Department it may be at once admitted that there is probably no community more deserving of consideration in this respect than the people of Barkerville. It will be recollected that in the autumn of 1868 the entire town of Barkerville was laid in ashes in the course of a few hours. The energy which was displayed in rebuilding that town and the spirit of liberal enterprise which has characterised the subsequent conduct of its people in organizing and maintaing an efficient Fire Brigade, with very little extraneous assistance, is worthy of all praise and would be fittingly marked by a liberal annual grant from the public purse. But, in addition to this more sentimental claim, every part of the Colony is more or less interested in the prosperity of Cariboo, and another Barkerville conflagaration would be a public calamity in which every colonist would participate to a greater or less extent. Every consideration of justice, of common interest and of policy leads us, therefore, to express sincere regret that the Executive should not have seen its way clear to extend substantial aid and encouragement to the Barkerville Fire Brigade.

PARLIAMENTARY REFRESHMENTS.—In the Manitoba Legislature up n a motion to make provision for a refreshment room in conection with the Legislative Chamber, the Attorney General took occasion to make the following very sensible remarks: 'Now that this matter is under consideration let me say that there is one feature of these refreshment rooms which is deplored in every Legislature in Canada. I refer to the use of spirituous liquors. For my part I shall, in every possible manner and by all legitimate means, prevent the introduction within the walls of this House of one drop of spirituous liquors. I am aware that neither the mover nor seconder contemplated the introduction of spirituous liquors, and I trust it will not be attempted by any. As far as I am concerned, in all other particulars I will only be too happy to assist in procuring every comfort for the members.'

FALL OF A WHARF.—Yesterday morning a section of Roussett's wharf gave way with a crash and fell into the harbor. There were resting upon it at the time a large number of empty casks for shipment by the schooner Dominion for the Douglas-Dawson Whaling Company. The casks were carried down with the wharf, but were quickly recovered. The wharf was built in 1858 of light materials, and was once the scene of a lively traffic; but for the past two or three years has been deemed so unsafe that no vehicles have ventured upon it. Its fall was long anticipated and it is fortunate that the lives of no human beings were sacrificed with it.

THE DAMAGE TO THE PACIFIC.—This steamship went on the beach on Saturday at Nanaimo, when it was ascertained that the injury sustained was not so serious as at first supposed. The forefoot and stem were found to have been damaged, and the necessary patching was done in one tide and the steamship floated in the evening. Capt Harrison announced his intention of loading coal for San Francisco, arriving at Victoria this [Tuesday] afternoon, and sailing for San Francisco on Thursday morning.

CAPT TOM STRATTON, a '58 pioneer, one of the party who scaled the hoary summit of Mount Baker and who has latterly been connected with the steamer Isabel, has just been appointed to the position of Division Superintendent on the North Pacific Railroad, and will leave for Kalama. Tom is one of the cleverest and most obliging men we have met and his place will be difficult to fill.

CAUGHT A CRAB AND GOT A DUCKING.—A young man, while rowing a boat through the boiling waters of the Gorge on Sunday, 'caught a crab' and fell over the side of the boat into the flood. He was being swept away when a gentleman in the boat seized him by the hair and held on like Grim Death until the unfortunate young man was hauled in thoroughly drenched but otherwise none the worse for the 'crab.'

DEATH OF JAMES M. YALE, ESQ.—James M Yale, Esq, one of the oldest employés of the Hudson Bay Company, died on Sunday last at an advanced age, and will be buried to-day at 2 o'clock. Deceased entered the Company's service when a mere boy and passed the best part of his life among the savage tribes of this colony. The town of Yale was named after the deceased.

DR. C. F. BARNARD.—The public will observe by the advertisement that this gentleman is 'himself again,' having recovered from a severe illness, and patients requiring his services will find him at his office, Douglas street.

THE REGISTRATION.—We hope the collectors of each district will be furnished with horses and sent through the district to collect the registration papers of electors who cannot find time to call on the collectors.

BARKERVILLE SCHOOL.—Mr John Mundell has been appointed teacher of the Barkerville, Cariboo, school, and will leave immediately for the scene of labor. Mr Mundell was highly recommended for the position.

BEREAVEMENT.—We regret to learn that His Excellency the Governor has lately received intelligence of the death of a sister at Antigua

BOOKBINDING.—Mr Robert Williams has just executed two specimens of binding for the Government which, in point of durability and finish, will compare favorably with the best San Francisco work we have yet seen.

MR. SAM. DENNIS, a wellknown and popular comedian, has been engaged to join the Beatly Troupe on the Sound.

NARROW ESCAPE FROM DROWNING.—Some ten days since three young ladies at Port Gamble, named Kitty Noyes, Mary Williamson and Belle Comstock, walked out upon a raft of loose logs moored near the shore and, while upon its outer edge, the log upon which Misses Williamson and Comstock were walking suddenly turned and precipitated them into deep water. Rising to the surface, they managed to sustain themselves by holding on to the log till Dr Houghton, who saw the accident, rushed to their rescue. Reaching Miss Williamson first, he was about to assist her out when she instantly motioned him away, exclaiming with intense pathos: 'Never mind me; save Belle!' He instantly hastened to Miss Comstock's assistance and caught her just as she had lost her hold of the log and was on the point of sinking. With the aid rendered him by Miss Noyes, he succeeded in getting her out of the water, when he and the latter immediately went to the rescue of Miss Williamson who was all the time struggling to keep her head above water by the constantly rolling support to which she clung. After much difficulty they succeeded in getting to where she was and extricating her from her perilous situation, but had hardly done so before the log rolled over again, throwing Miss Williamson in again and the Doctor also. It was then through the coolness, intrepidity and tact of Miss Noyes that the Doctor was enabled to get out and afterwards assist in the succor of Miss Williamson for the second time. Had it not been for the timely assistance of Dr Houghton and the coolness and daring exhibited by Miss Noyes, both of the other young ladies would inevitably have been drowned, as they were unobserved by any one else.—*Seattle Intelligencer*, May 8.

The Panorama.

EDITOR BRITISH COLONIST.—I have read with much regret a paragraph in your paper that the panorama painted by Mr Barker is about to be taken away without the public of Victoria being afforded an opportunity of seeing it.

Although, of course, as Victorians, we cannot *demand* that the panorama shall be first shown here; yet I think that, as citizens of the place in which it was painted, and of which, as I am informed, an excellent view has been taken for exhibition in Canada and the Eastern States, we certainly have a strong claim to see it first. Yours,

Sanford Fleming's Estimate.

Since it is understood that Mr Fleming is to be appointed Chief Engineer of the Canadian Pacific Railway, his report upon that projected enterprise becomes invested with accumulative interest. It was Mr Fleming's report which was chiefly relied upon by the Canadian Government in adopting and advocating the scheme is both Houses of Parliament, and the report was frequently quoted on both sides of the House: We offer an extract or two:

'Measuring on the map along the general route of the proposed line from the mouth of Fraser River to one of the best passages yet discovered in the Rocky Mountains along the general direction of the 'Fertile Belt' keeping South of the North Saskatchewan, crossing the Red River near the settlement, bridging the Winnipeg River at the North end of the Lake of the Woods, striking through the country to the most northerly bend of the shore of Lake Superior, thence in a direct line to a crossing on the French River, west of Lake Nipising, and from this point connecting with the existing railway system of Canada, either at the town of Barrie, or at Peterboro, or at the city of Ottawa.

That a just conception may be formed of the real magnitude of the project under discussion, and the means necessary to its attainment, attention may for a moment be drawn to a few leading details.

The construction of 2,000 miles of railway measured by the average standard of similar works existing in this country implies the performance of labourer's work sufficient to give employment to 10,000 men for five or six years, it involves the delivery of 5 000,000 cross ties or sleepers, and over 200,000 tons of iron rails for the 'permanent way;' it comprises the erection of 60,000 poles hung with 1,000 tons of wire of the telegraph; it necessitates the creation of motive power equivalent to over 50.000 horses, which power would be concentrated in 400 locomotives. It involves the production of from five thousand to six thousand cars of all kinds, which, coupled with locomotives, would make a single train over thirty miles in length. Lastly, it implies a gross expenditure on construction and equipment of not less than $100.000,000.

Mr Trutch's Declaration.

EDITOR COLONIST.—I have read with regret your editorial on the speech delivered by Mr Trutch at the recent banquet at Ottawa, because I am strongly of opinion that you fail in some measure to appreciate the difficulties surrounding the question under discussion, as in Canada, and your remarks are calculated to strengthen the hands of those there who are opposed to the construction of the railroad in the manner agreed upon. My inclination is to go into this matter in detail, but I refrain. I have time only to say in brief that our best friends over the mountains, and we have many such there, unless I am much mistaken, would prefer to see us cordially accept the arrangement arrived at in its general features and avoid taking exception to points which they consider more as matters of detail. And you must admit, I think, that the Terms of Confederation are favorable to us,—I would even say better than could have been anticipated in view of the strenuous and unrelenting opposition which had to be encountered, and which is being strongly felt in some of its influences in the Dominion, influences which are being made to tell upon the public mind with increasing force as the general election, now not far off, approaches. The benefits of Confederation, &c., to both countries are no doubt mutual. I will not now discuss the question as to whether Canada or this Colony will be benefitted most. There are many who contend that we shall be the greater gainers, and forcible reasons are urged in support of this view. Therefore, it will be prudence not to prove too exacting in reference to things which don't seem to be of vital importance.

As regards the utterances of Mr Trutch at the dinner in question, I suggest that severe criticism should not be employed. He is of course well informed as to the state of public sentiment in Canada, and knows the attitude of political parties and the intense feeling unfavorable to the railroad created in large sections of that country,—a feeling that will be directed towards the overthrow of that party through whose patriotic efforts the measure was passed. I am satisfied that the patrotism of our fellow subjects in Canada will ultimately give the victory to the party which now direct the destinies of the Dominion; yet it is proper to use all fair means to disarm opposition and as far as practicable, to strengthen the hands of those who have done so much for us and the Dominion at large, and who, I feel assured, are only awaiting the opportunity to give full effect in the largest manner practicable, to the scheme now before the country, and which bears so intimate a relation to our future well-being in this out-lying Colony. How far such thoughts as these may have presented themselves to our able Delegate it is not for us to say, but I think it more than probable that some such reflections have been suggested to his mind. Hence the line of remark which he pursued on the occasion alluded to.

There are a few other things in your article which, did I think it timely, would merit respectful attention. Enough for the present I wish to avoid the discussion of what appear to be side issues and non-essential. Let us all combine to make this, what it must eventually be by the force of circumstances, if by no other means, a truly great and prosperous country, whose limits in the East are the cold waves of Old Atlantic, and on the West the golden-tipped waters of the Mighty Pacific.

MAPLE LEAF.

VICTORIA, *May*, 1871.

Remarkable Hanging Affair.

The Rochester *Union* relates the following remarkable story, which the reader is not required to believe, without he has a mind to:

Several years ago, when the West was a comparatively new country, an individual presented himself at the door of a log grocery in the settlement of which we write and asked if there was a Judge in the place. Upon being informed that the storekeeper himself was a Judge, the stranger proceeded:

'Well, Judge, you see the facts of the case is this—I war travelin' along with a pardner down here a piece an' he showed me a silver dollar which he had. Well I wanted the money and when he wasn't lookin' I popped him under the ear with my pistol. Then I took his silver and tobacker and cum along alone; but I got to thinkin' the matter over and I don't think I did just the right thing by my pardner. My conshuns has been troublin' me and I think I ought to be hung. Now, Judge, if it wouldn't be too much trouble, I'd like to have you try me and have me hung. If you doubt the facts in the case, there's the dollar I took from my pardner and you'll find his remains down the road a piece, under a log. I'll be obliged to you, Judge, if you'll have me hung.'

The Judge told the stranger to make himself comfortable over at the hotel until he could send some men down the road to investigate the matter and if they found the body he would call a jury and try the stranger as was desired. The dead man being found, the Judge summoned a jury and sent word to the stranger at the hotel that if he would step over to the store they would give him a trial.

The stranger appeared immediately, shook hands with the Judge and jury, invited the Court to take a drink and appeared grateful and satisfied with the proceedings.

The trial proceeded socially and the tender hearted jury brought in a verdict of guilty of manslaughter in the first degree. A look of anxiety which the stranger had worn up to this time faded from his face as he stood up to receive his sentence. 'You have been found to be guilty,' said the Judge, of the crime of manslaughter, for which you are undoubtedly penitent.' Here the stranger began to get anxious and uneasy.

'And it,' proceeded the Judge, 'it meets with your approval we will try to hang you on Sunday morning at 11 o'clock. In the meantime try and make yourself as comfortable as possible.'

The stranger looked a little sad and the Judge asked him if he wasn't satisfied. If not, was there anything he could do for him?

'Judge, I hate to be particular and fussy,' said the stranger, 'but havin' the fever and ager, the chills come on at 10 o'clock in the mornin', and if you could have me swung off before that I'd feel obliged.'

'Of course,' said the Judge, 'we always respect a party's feelings. No trouble at all. Come round at 9 o'clock and may be we'll get through before church time.'

Sunday morning at 9 o'clock the stranger came out of the hotel and proceeded to the grocery. There he met a deputation of citizens, one of whom threw a lariat over the limb of a tree, and, as soon as the stranger had taken a chew of tobacco and shaken hands all round, they hauled him up.

Mexico.

CITY OF MEXICO, April 30—The Vera Cruz railroad is finished to Potrero station, and will reach Cordova in July.

An attempted revolution in Sinoloa was frustrated and the leaders arrested.

A Protestant Church was dedicated in the City of Mexico; it was formerly a Catholic Church. The edifice was crowded with an immense audience.

Congress contains 55 independents, who favor Juarez, and at other times are opposed. Fusionists have triumphed in the City Council affairs.

INTERESTING TO THE LADIES.—Paris has long been leader of the fashions and France the emporium of fashionable fabrics. The functions of both, in this respect, have been greatly paralysed by the late terrible war, and the revolution which followed continues to interrupt the resuscitation of these functions. The consequence is that all French manufactures, especially silk goods, have experienced a very decided upward tendency and are still rising. It is, however, a fortunate circumstance for this community that Messrs J P Tunstall & Co, of London, happened to make a very large purchase just in time to escape the great rise. These goods are from the celebrated factory of the best makers in France (C J Bonnet & Cie, of Lyons) and the ladies of Victoria will be pleased to know that a very rich assortment from that large purchase was received at the London House by the last steamer, and that the patrons of J H Turner & Co are to get the full benefit of the favorable circumstances under which these goods were bought. *

To avert evil is one of the greatest triumphs of human skill. This triumph is achieved by Dr Walker's Vinegar *Bitters*. They build up, fortify and renoviate the whole system, thus enabling it to defy the elemental causes of disease. Hence their efficacy as a protective medicine in districts where the air and water are impure. The weakest and most susceptible organization is rendered proof against all malarious disorders by taking one or two doses daily as a preventive. 5

Mitchell & Johnston,
AGENTS FOR BRITISH COLUMBIA FOR
REGISTERED SELF-ACTING HAND SEED DRILL,
Received the Special First Prize Silver Medal at the Norfolk Agricultural Society's Meeting at Downham, June, 1868.

This will be found to be a very useful Implement, as a greater regularity is obtained than sowing by hand, while a saving of nearly fifty per cent is effected in the sowing of the Seed, and it cannot possibly get out of order. A boy will work it with ease, and it will drill as fast as he can walk. For the Farmer it will be found an invaluable Implement. By simply turning a thumb-screw it can at once be adapted for sowing Mangold Wurtzel, Barley, Wheat, Sainfoin, Tares, Rape, Turnips, Onions, Radishes, Flax, Carrot, Cabbage, Cauliflower, and Brocoli Seeds. Full directions are sent with each. Price £5 each.

HAVING LEARNED THAT CERTAIN interested parties are spreading the report that Barnard's Express and Stage Line will not continue to be run regularly to Cariboo as heretofore, I beg to state that not only will that business be continued in all its past efficiency, but that arrangements are nearly matured for greatly reducing the rate of charges and increasing the efficiency of the service, as soon as the Spring opens.

ELECTRICITY IS LIFE.
PULVERMACHER'S
Pocket Batteries.
CHAIN BANDS, BELTS
AND
PATENT GALVANIC
THESE REMARKABLE AND HIGHLY improved inventions render Electricity perfectly self-applicable, and extremely efficacious in a mild continuous form, no shock or unpleasant sensation being experienced, whereby it becomes a true fountain of health and vigor, speedily soothing agonising pains, re-animating torpid limbs, reviving the sluggish functions of life and imparting renewed energy and vitality to constitutions enfeebled by whatever cause. Medicines and their deleterious consequences are thus entirely dispensed with. The daily increasing number of cures effected by PULVERMACHER'S MEDICO GALVANIC SYSTEM is so extensive and varied, that it forcibly points to this invention a the embryo of the universal remedy.
N. B—The following testimony from the ELITE of the English medical faculty has been received:
"We, the undersigned, have much pleasure in testifying that Mr J L PULVERMACHER'S recent improvements in his Voltaic Batteries and Galvanic Appliances for Medical Purposes, are of great importance to Scientific Medicines and that he is entitled to the consideration and support of everyone disposed to further the advancement of real and useful progress.
Dated this 9th day of March, 1866
Sir Charles Locock, Bart., M O, F R C P.
Sir Henry Holland, Bart., M D, F R S.
Sir Wm Ferguson, Bart, F R S.
Edward H. Sieveking, M D, M R C S.
Sir J. Ranald Martin, F R C S."
PULVERMACHER'S SYSTEM is also approved of by an official report of the Academie de Medicine, Paris; Royal College of Physicians, London; and the Imperial Faculty, Vienna, and its curative virtues are confirmed by thousands of private testimonials of cures effected. (See pamphlet, gratis).
These facts appeal to the good sense of every sufferer to avail himself of this scientific and curative progress, to which the inventor has devoted a lifetime of study and labour, as an ardent disciple of that great benefactor of mankind, the late illustrious electrician, MICHAEL FARADAY.
PULVERMACHER'S MEDICO GALVANIC CHAIN are exceedingly effective without the aid of medicine, restriction of diet, or the least derangement of the patient's habits and daily occupations. In the following maladies:—

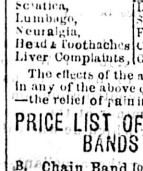

Rheumatism,	Tic Doloreux,	Sluggish circulation,
Gout,	Indigestion,	Urinary Disorder
Sciatica,	Deafness,	Paralysis,
Lumbago,	Spasms,	Epilepsy,
Neuralgia,	Female complaint	Nervous Debility
Head & Toothache	Constipation,	Functional Disorders, &c
Liver Complaints,	Cramp,	

The effects of the application of Pulvermacher's Chains in any of the above disorders is immediately perceptible—the relief of pain instantaneous.

PRICE LIST OF PULVERMACHER'S CHAIN BANDS AND BATTERIES.

B. Chain Bands for Loss of Voice and other affections of the Throat 10s. 6d to 21s.

CAUTION A Perpetual Injunction in Chancery dated 18th August 1869, was granted to J L Pulvermacher against Alfred Barrows, alias C D Hammond, alias Henry James, alias C D Ranshey, his assistants, agents and servants restraining the said person or persons under a penalty of £5000 from deceitfully advertising Belts, &c., exclusively representing them as electric. This decree is printed in extenso in Pulvermacher's Pamphlet of recent Testimonials and Medical Reports of cures, containing likewise numerous extracts from many standard and scientific works, viz. Dr Quercira's "Materia Medica," Dr Tanner's "Practice of Medicine," Dr Handfield Jones "On Nervous and Functional Disoders, etc." This pamphlet may be had at the office of this Paper, or of J L Pulvermacher's Galvanic Establishment, 200 Regent St London.

New Remedies! New Remedies!
DR. GIBBON'S DISPENSARY

No 623 Kearney Street Corner Commercial, San Francisco, established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc., etc. Skin diseases of years standing, and Ulcerated Legs, etc., successfully treated.
DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal hospitals of Europe, and has resumed practice at his dispensary, 623 Kearney street, corner of Commercial, where his old patients and those requiring his services may find him.
The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.
Seminal Weakness.
Seminal emission is the consequence of self-abuse. The solitary vice, or depraved sexual indulgence is practiced by the youth of both sexes to an unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Shallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like a rattling of leaves, or rattling chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples, and various eruptions about the face, hectic flushes, furred tongue, fœtid breath, consumption, night sweats, monomania and frequently insanity. If relief be obtained, you should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure.
Cured at Home.
Persons at a distance may be cured at home, by addressing a letter to Dr Gibbon case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain direction for use, by inclosing $10 in coin, in a registered letter, through the Postoffice or through Wells, Fargo & Co.
A package of medicine will be forwarded by express to any part of the Union.
Persons writing to the Doctor will please state the name of the paper they see this advertisement in.
Private entrance on Commercial street.
All communications strictly confidential.
